PROFESSIONAL SUMMARY

Automation engineer and GoHighLevel expert who designs and ships AI-powered systems for operations-heavy businesses: LLM integrations, CRM pipelines, multi-tool automations and lightweight web apps. GoHighLevel specialist since 2021 with 100+ sub-accounts managed across med spa, legal, insurance, real estate, financial services and education clients. Integrates the OpenAI and Claude APIs, AI conversational agents and voice AI (GHL Conversation AI, Retell AI) into live client workflows, and connects GHL, HubSpot and other tools through n8n, Make.com, Zapier, webhooks and third-party APIs. Builds sites and web apps with React, Next.js and Node on Supabase, GitHub and Vercel. Documents every system with SOPs and reusable snapshots so builds can be replicated across clients. Brings 10 years of client-facing experience in support and onboarding.

CORE SKILLS

AI and LLM Integration: OpenAI API, Claude (Anthropic) API, prompt engineering, AI conversational agents, GHL Conversation AI, Voice AI and AI Studio, Retell AI voice receptionists, Claude Code with GHL MCP

Automation and Integrations: n8n, Make.com, Zapier, ManyChat, webhooks, REST API integrations, Slack, Google Sheets

Web App Development: React, Next.js, Node.js, JavaScript, HTML, CSS, Python, SQL, JSON, Supabase, GitHub, Vercel

CRM and Operations Tools: GoHighLevel (sub-accounts, snapshots, pipelines, workflows, calendars, forms), HubSpot, Salesforce, monday.com, Zenoti, ClickUp, Asana

Systems and Compliance: Snapshot architecture, white-label multi-client deployment, SOP documentation, A2P 10DLC registration

Marketing and Tracking: Meta Ads, Facebook Pixel, full-funnel attribution, SEO (Ahrefs, Keyword Planner), Mailchimp

Other Tools: Google Workspace, Microsoft Excel, Canva, CapCut, Apollo.io, Clay, LinkedIn Sales Navigator

SELECTED AI AND AUTOMATION BUILDS

- Claude API comment automation (real estate client): GHL + Make.com integration that connects the Claude API to social media comment automation across Facebook, Instagram and TikTok.
- Front Desk Plus: 48-workflow GHL system organized in named folders, with a Retell AI voice receptionist, A2P compliance and snapshot architecture, documented in a full fulfillment SOP.
- Outbound lead pipeline: n8n workflow (Clay webhook, duplicate check, Supabase insert) with workflow JSON version-controlled on GitHub.
- Web builds: Buildison web agency site and my portfolio site, built on GitHub and Supabase and deployed on Vercel.

PROFESSIONAL EXPERIENCE

GHL Expert / Automation Specialist (Full-Time)
ZZ Med Spa | April 2026 – October 2026

- Architected a multi-system lead routing pipeline: Facebook lead form leads flow into the GHL CRM, uncontacted leads are sent by API webhook to the sales team's Hot Prospector call queue, and booked leads move to Zenoti, with Slack alerts and spreadsheet reporting.
- Developed ManyChat Instagram comment-to-DM automations, resolving trigger conflicts and Meta API instability, and ran Meta Ads and Reels campaigns.
- Built HTML landing pages for laser hair removal campaigns (Summer Beach Campaign, Unlimited LHR) and a consultation booking page with Phone Call and Clinic Visit options.
- Set up Meta Pixel tracking, Zenoti email templates, lead nurture workflows and A2P 10DLC SMS registration.

GHL Expert (Full-Time)
Harvest AF (Legacy Builders Collective) | February 2026 – October 2026

- Ran the full website and business automations in GoHighLevel for a tax preparation business.
- Built a multi-screen "2026 Tax & Family Wealth Check" quiz funnel with tag-based tracking that routes leads straight into GHL.
- Developed a custom HTML "Roadmap Intake" form with inbound webhook submission into GHL, plus email and SMS nurture sequences.
- Built the harvestaf.net landing page, a vanilla HTML/JS community dashboard, branded email templates and GHL AI Studio automations.

GHL Expert (Project-Based)
TutorEasily LLC | 2026 – October 2026

- Built GoHighLevel websites, reusable snapshots and automations for TutorEasily's UK tutoring clients.
- Wrote AI conversational agent prompts for Facebook lead response and call classification, plus webinar email sequences.
- Built the Zapier layer (20+ live Zaps) connecting Stripe and Whop payments, Typeform, Skool sign-ups and Calendly bookings to GHL, Slack, Google Sheets and Kit.
- Delivered custom-coded GHL page sets (Home, Book a Call, Thank You, FAQ, Free Resource) for 10+ tutoring businesses.

GHL Expert (Project-Based)
Kelly Family Agency (Allstate) | February 2026 – April 2026

- Built the Allstate agency website (kellyagency.us) in Lovable.dev and connected the whole client journey through GoHighLevel.
- Set up Conversation AI booking, which filled about 80% of weekly calendar slots, and embedded GHL custom quote forms and booking calendars for auto, home, life and business coverage.
- Built a webinar path (registration, reminders, post-webinar follow-up) and applied on-page SEO.

GHL Expert / Onboarding Specialist (Full-Time)
Advanced Agent Marketing | August 2025 – November 2025

- Handled client onboarding and GoHighLevel build-out across marketing accounts.

GHL Expert / Onboarding Specialist (Full-Time)
Raise AI | September 2024 – July 2025

- Built the GoHighLevel agency for a capital-raising SaaS offer from scratch, including sub-account setup, snapshots, pipelines and the workflows that carry a new client from signup to active.

GHL Expert / Tech Specialist (Flexi / On-Call)
Roxell Richards Injury Law Firm | August 2024 – October 2025

- Built the firm's website from scratch and reworked client intake.
- Set up a lead form for each case type and routed signed cases to monday.com, tagging the attorney handling each case.
- Handled intake automation, CRM upkeep and integrations so case enquiries never slip between tools.

GHL Expert / Onboarding Specialist (Full-Time)
DSOA Dance School | February 2024 – October 2024

Appointment Setter / Marketing VA for GHL (Full-Time)
Graystone Media Trading | August 2023 – February 2024
